

Cuvée Agincourt

America's First Sparkling Sauvignon Blanc
NV - North Coast - Sustainably Farmed

Easy drinking and approachable - Down right brunchable. This wine is all the best parts of the tropical profile of SB and joyous bubbles of sparkling wine. Enjoy with or without food.

Dosage: Extra-Brut + 5.5g/L

Hotspur Cuvée * Rosé

NV - North Coast - Sustainably Farmed

55% Zinfandel, 35% Syrah and 3% Albariño, 3% Chennin Blanc 4% Sauvignon Blanc. What's more fun than bubbles? Pink Bubbles! Not only is the color of the wine pleasing to the eye; It's easy drinking and quaffable. The aromas of berries and citrus blossoms on the nose transfer to flavors the pallet, where you'll find them along with the additional accents of fresh baked brioche and ruby red grapefruit. For what it's worth, I really enjoy this wine and may even sell a few bottles before I drink them all...Maybe...

Dosage: Extra-Brut + 4.5g/L.

The Fearless* Blanc de Blancs

NV - Suisun Valley AVA

75% Charonnay, 15% Pinot Gris, 5% Chennin Blanc, 5% Sauvignon Blanc. The lions share of the grapes coming from the Suisun Valley in Soloano County (A Southeast neighbor of Napa). In 2018 The warm days and the cooling effects of the Bay at night the caused the grapes to ripen evenly and maintain their acid, making them perfect for sparkling wine. The focused acidity, lively bubbles and subtle varietal expression of the grapes all add up to make a reserved and delicate yet lively wine. The low dosage of 2.5g/L really lets the wine speak for itself without the interference of cloying sugar.

Made largely of Burgundian varieties and named after John The Fearless , Duke of Burgundy (1371-1419). The guy was pretty much the honey badger of 15th C. France...Look him up...
